Yes. It was already sent to the city and the state, so it's a public document now.

This one wasn't the subject of the news coverage, but it's a subsequent comment letter on another draft report. And we are going to be providing it to a couple reports have asked if there are other comment letters.

Subject: EPA review of draft Rad Data Eval Parcels D-2, UC-1, UC-2, UC-3

Dear Pat,

Thank you for providing for review the *Draft Radiological Data Evaluation Findings Report for Parcels D-2, UC-1, UC-2, UC-2, and UC-3 Soil* ("Report"), Former Hunter's Point Naval Shipyard, October 2017. The U.S. Environmental Protection Agency (EPA), the California Department of Toxic Substances Control (DTSC), and the California Department of Public Health (CDPH) have independently reviewed this report. Attached are 1) narrative comments, 2) spreadsheets with reviews of individual trench units, and 3) spreadsheets for fill units.

EPA previously submitted comments December 29, 2018, on the Navy's similar report for Parcels B and G. Most of these previous comments address the overall evaluation, so they also apply to this report. They are not repeated in the attached narrative comments but are incorporated by reference.

If you would like to discuss any of these comments, please contact me at 415-947-4187 or lee.lily@epa.gov. You may also contact my manager John Chesnutt at 415-972-3005 or chesnutt.john@epa.gov.

Lily
